DEATH OF THE OLDEST SOUTHERN EDITOR. The North Carolina papers contain the notice of the death of Mr. Dennis Hart, printer, and the oldest editor in North Carolina, who died in Hillsboro' on Friday last, in the eighty-seventh year of his age. Mr. Hart was a native of Connecticut, but came to North Carolina in early life. In the year 1820 he began the publication of the Hillsboro Recorder, which paper he conducted until about one year ago.

☞ The British Medical Journal is of opinion that the injurious effects of the use of sewing machines have been greatly exaggerated. After some investigation of the subject, it concludes that the objections urged apply to those machines worked by one foot only, but that double pedal machines are not injurious. The attention of medical men has of late been a good deal directed to this subject.

☞ A lovely girl in Wisconsin recovered $140 damages in a breach of promise suit against a perfidious lover. Her lawyer congratulated her on the amount, when she exclaimed, with a ferocious glance at the mulcted defendant, and nervously clutching her fingers, "I'd give every penny of it just to have one good pull at his hair."

### Personal.

We had a call this morning from Mr. Hughes, editor of the Knoxville Advertiser—a pleasant gentleman.

### The Formidable Fisk.

Fisk and his Fidus, the wily Gould, have just performed another feat that knocks their gold panic cold. They have gotten a charter for a Stock Exchange that gives them the entire control of all the stock transactions in New York city. The power is tremendous. Good for Fisk, the fabulous.

### Forney's Chronicle and Bullock's Bribery Case.

The three column article published by Forney in reply to the Congressional Committee that censured the Washington Chronicle for its corruption in the Georgia case, is as unique a document as we have perused in a long time.

He thinks the Committee's report pitiable, a shame, and a matter of surprise. Doubtless. No scamp was ever pleased at being found out and censured by honest men. This ebullition of feeling is so natural that we must give Forney credit for its thorough naturalness.

Forney thinks that when he told the committee that he knew nothing of any corrupt or improper means used to influence voters against the Bingham Amendment the committee should have said, "Go, Mr. Forney, your skirts are clean; your purity is angelic." The contumacious committee riled his honest soul by proving the matter. The idea seemed to strike Forney that when a scamp says not guilty, it is a preposterous piece of audacity to look farther into his case. Forney says he refused to show his books, but they made him bring them in, and even refused him a lawyer to argue against the persecution. And not only this, but they examined his books with a microscope to see if any alterations had been made. This crowning outrage stirred Forney into an explosion of pathos that equals anything in history. As he saw this awful process he sat by and recalled the weary years that Forney had fought for Republicanism, and for his stealings to be thus improperly exposed chagrined deeply his noble soul.

The truth is that no rarer paper ever emanated from the human brain than this document. Abusing the committee, appealing to his services to Radicalism, he claims that Senators who steal big sums should not rasp him for his small pickings.

It is a curious commentary on the times and Radicalism, that the official organ of the Government, when caught directly in selling its advocacy of measures for money, should see no wrong in the matter, and rely for defense on the fact that some men in high office have sold themselves higher than it did. It indulges in considerable clap-trap against the rebels, and talks about its services, as if all this was an answer to its proven corruption. He says in one place, with great emphasis, that the Chronicle has "never, thank God, deserted [illegible]" He should have added, "while said Republican had a dollar, and would pay him, as Bullock did, three prices without question."

### Spirit of the Press on the Bullock Corruptions.

The Washington Evening Star, of the 21st, comments upon the attempt of Forney to dictate to the Republican Senators, as follows, and cites the scathing comments of the Radical Washington correspondent of the Boston Advertiser, upon this disgraceful subject. To see a Bullock thus slaughtered by his own friends is certainly a unique and very instructive spectacle:

SOMEBODY DAMAGED, BUT NOT SENATORS.—The insolent attempt of the Chronicle to dictate to Republican Senators how they shall vote, in the interests of its heavy advertising patrons of the Bullock persuasion, has not only signally failed, but is drawing down upon that paper some censures from high-toned Republican quarters, sharp enough to pierce the hide of a rhinoceros. Sidney Andrews, well known as one of the most thoughtful and fair-minded Republican correspondents at Washington, thus writes to the Boston Advertiser concerning the disgraceful Bullock corruption-fund business, and the attempt to cover it up by hard swearing:

"The Georgia bribery report submitted in the Senate this afternoon cannot fail to have a decided influence in determining the Georgia question, when it comes up for settlement. The voluminous testimony shows beyond all cavil that Bullock and his friends have been plentifully supplied with money and railroad bonds all winter, and that they were not at all scrupulous in the manner of using their funds if votes could be obtained against the Bingham amendment. The committee found that wholly unsuccessful attempts were made to buy Senators Tipton and Carpenter. That reports of outrages in Georgia were furnished to order and paid for by the Bullock party, that such influences as the Chronicle had was purchased in a roundabout manner, that persons were hired to write letters for the purpose of influencing the judgment of Senators, and that, in a few words, the Bullock party used such means as it could, week after week, to dragoon or intimidate Senators into giving the Georgia Legislature two years more of power. The committee is unanimous in all of these conclusions, but Senators Rice and Stewart, while strongly censuring the Chronicle for taking money, are very easy on Bullock for paying it. The chief witnesses were loth to tell what they knew, and some of them indulged in the tallest kind of lying when first examined. Both branches of Congress will probably decline to continue the Bullock ring in office beyond next fall. The story is generally current to-night that Bullock is at the Chronicle office, and that "My two newspapers, both daily," will to-morrow and henceforth pour their hottest shot into Trumbull, Edmunds, Carpenter and Conkling for the language they used in the report."

### Fact.

Buddhism has been interdicted by the Government of Japan.

The musical papers of Germany say that a large number of persons from that country will participate in the National Saengerfast at Cincinnati.

An electric faro-box has been invented in Baltimore, and is coming into use, by which the dealer can draw any card he wishes without the slightest possibility of detection.

Ollivier says there are 1.200 Roman Catholic Priests in France, who are earning a livelihood as cabmen or street-sweepers, in consequence of being turned out of their parishes by their despotic Bishops.

The Central Baptist states, on the authority of an engineer in the United States service, that the exact centre of the Republic, as nearly as could be calculated, is at Fort Riley, on the Kansas Pacific Railroad—a point 433 miles West of St. Louis.

☞ Mr. Stumpf, the Knoxville bar-tender, who was wounded last week by the explosion of an ale barrel, died of his injuries on Saturday night.

☞ A married lady in St Paul has been in a trance for six weeks, and her husband refuses to send for a doctor. He says he intends to enjoy a quiet time as long as possible.

### Georgia News.

Martins have appeared in Columbus.

The lightning has struck several buildings in Augusta recently.

The hail storm at Rome on Monday did very little damage to the crops.

There has not been as much corn sold at Columbus this year as last.

Measles are prevalent in Athens. Many deaths have occurred among adults and children.

The Rome papers say the firemen's parade in that city on Tuesday was a grand success.

Two men of Savannah settled a difficulty Tuesday morning in sixteen rounds, occupying 45 minutes. Both whipped.

The grand regatta at Savannah began yesterday. Seven boats are entered for the first day.

The railroads leading out of Augusta have agreed to transport the city paupers free of charge.

The first twenty-mile section of the Bainbridge, Cuthbert and Columbus Railroad will be ready for the superstructure by July first.

A meeting of the various county corporators of the Columbus and LaGrange Railroad, takes place at Columbus Thursday week.

The Columbus Sun says a party of hunters from Columbus went to Apalachicola recently, killed three deers and caught a car load of fish.

The meeting of the people of Jackson county to consider railroad matters takes place at Jefferson, on the first Tuesday in June.

Harris county delegates have arrived in Columbus, to urge on the City Council the claims of the Hamilton route of the Columbus and LaGrange Road.

The Milledgeville Recorder dogmatically says: The people of Georgia will never submit to the Capitol being permanently located at Atlanta. At the next election the matter will be considered.

The Athens Watchman, 25th, says corn and cotton are too young to suffer much, but we learn that a good deal of cotton has failed to come up. Wheat looks well, but the straw will be short, and probably the heads not so well filled.

The Cartersville Express says the wheat crop of Bartow has not promised a better yield since 1857. The store of Messrs. R. C. & J. E. Roberts, at Cartersville, was entered on Monday night by burglars, and the safe robbed of $3,000.

The Chronicle and Sentinel, 25th, says that the Macon and Augusta Railroad will be finished through to Macon in sixty days. It also states that the work on the new railroad from Sumter or vicinity to Columbia will soon be commenced. Work on the Augusta and Port Royal Railroad is progressing; five miles of the line is being operated.

The Columbia Guardian says that Colonel Bridges, the President of the Wilmington, Columbia and Augusta Railroad Company, was in that city Monday, just returned from a brief visit to the lower part of the county. The surveyors are approaching Columbia, and will have one line run through from the river to Augusta in a few days. So far they have found the route quite practicable.

The Americus Courier, of the 24th instant, says: We understand a difficulty occurred on Friday last, between Neidham Cox and Joseph Webb, while on a fishing [illegible] fatal wounding of Mr. Cox. Mr. Cox is well known to many of our citizens, having married a daughter of Judge L. P. Dorman a short time since in this vicinity. Sumter County Superior Court convenes next Monday.

The Savannah Republican, of the 25th, says: The fact that Epstein & Einstein have been for some time raising large sums of money by means of forged endorsements was accidentally disclosed yesterday morning. It appears that the names of Meinhard, Brothers & Co. have been forged to the amount of about seventeen thousand dollars, that of Blun & Meyer to the amount of some five thousand dollars, George Gemenden for some seven or eight thousand dollars, and A. A. Solomons for four thousand dollars. Einstein has been arrested and bailed, but Epstein could not be found. We learn that the Merchants' National Bank of Savannah is the heaviest sufferer by these forgeries, but there are other victims whose names we could not learn.

The Railroad meeting at LaGrange, on the 21st, to consider the Columbus, Whitesville and LaGrange Railroad, was very harmonious and effective. The following report was adopted and a committee appointed to carry it into effect:

The undersigned, committee appointed to see the corporators, present in LaGrange to-day, named in the Act of the General Assembly of Georgia entitled an Act to incorporate the Columbus and Whiteville Railroad Company and other purposes, have seen Dr. E. H. Norwood, the only one of said corporators in the city, who cordially agrees to transfer all the privileges of said Act, granted to said corporators for a railroad to pass from LaGrange direct to Columbus. He further pledges to secure the co-operation of the other corporators, and he assures us that they will agree to said transfer. It was also contemplated, in the conference, that the road willl be extended North, connecting with the great air-lines projected from the section of the lakes of the Northwest to the Gulf and the Southeastern Atlantic coast. The committee on corporators of the Columbus and Whitesville Railroad Company, made the following report, which was adopted:

The committee suggest that the charter of the Columbus and Whitesville Railroad be used for the purpose therein mentioned;

Provided, That the corporators therein named associate with them such persons as may be selected from the city of Columbus, Harris county, and LaGrange, with the recommendation that the charter be so amended at the first meeting of the Georgia Legislature, as to authorize the construction of an Air-Line Railroad from Columbus, via LaGrange, to such points in North Georgia as may be chosen by said railway, under the name and title of the Columbus, LaGrange and North Georgia Railway.

### The Last Phase of Woman's Rights—What Babies are Worth—A New Impediment to Connubial Felicity.

A writer in a recent number of the Revolution enumerates a few of the female wants of the age, and, with astonishing novelty, throws the following bomb-shell into the camp of Hymen. Judging from her skill in figures, the writer is evidently a graduate of some New England female college:

The great want of women at present is money—money for their personal wants, and money to carry out their plans. I promise that they shall earn it; that they shall consider it as honorable to work for money as for board, and I demand for them equal pay for equal work. I demand that the bearing and rearing of children, the most exacting of employments, and involving the most terrible risks, shall be the best paid work in the world, and husbands shall treat their wives with at least as much consideration, and acknowledge them entitled to as much money, as wet nurses.

The meaning of this is, that wives are about to strike for greenbacks; so much for every baby born. No greenbacks, no more sons and daughters. No greenbacks, no more population; no more boys to carry on the great enterprises of the age. The scale of prices for maternal duties is as follows: Girl babies, $100; boy babies, $200; twin babies, $300; twins (both boys), $400; triplets, $600; triplets (all boys), $1,000. Terms: C. O. D. No credit beyond first child, the motto being, "Pay up, or dry up." Husbands who desire to transmit their names to posterity will please notice and take a new departure.

### City and Suburban Affairs.

WE learn that the rain yesterday evening and last night was general along the line of the Georgia Road. The heaviest fall of rain was from Union Point to Augusta.

KILLED.—Mr. Thornton, an employee of the State Road, while coupling cars this afternoon, near the State Shop, fell under the cars and was cut in two.

A MR. SAVAGE shot at a negro waiter at the American Hotel this morning; for what cause we did not learn. He was arrested on a warrant issued by Justice Spencer, and will undergo preliminary examination this afternoon or to-morrow.

CAPTAIN PHILIP L. COHEN, the gallant Captain of Fillmore Fire Company in Augusta, arrived in our city this morning. He is the live commander of a live company, and may they continue to fill more of the page of public appreciation by their noble deeds and gallant bearing.

THE Cowart House, kept by Mrs. E. A. Jones, was partially destroyed by fire this morning. The fire was discovered about 2 o'clock, and the police had to arouse the inmates. The fire originated in the attic, and the whole roof, it is said, blazed out about the same time. The second floor was only partially injured by fire. The building is the one known as the Cowart House, and belonged to Mr. G. H. Camp. The house was insured for $5,000 with Mr. L. B. Davis, and the furniture with M. C. Blanchard for $1,500. The damage will be fully covered by the insurance. The origin of the fire is unknown.

OPENING OF STONE MOUNTAIN HOTEL. Yesterday evening, some twenty-five or thirty of the beaux and belles of the Gate City went to Stone Mountain to christen the new hotel, opened that day, by Colonel J. J. Morrison.

On the way, a quartette of fine singers, two ladies and two gentlemen, enlivened the hour by choice operatic music. Whenever the "singists" struck a classical allusion, it "brought down the House."

The excursion party were welcomed on their arrival by music by the Stone Mountain Brass Band. After partaking of a superb supper, the rooms were thrown open, and the assemblage

"Tripped on the light fantastic toe"

until after 12 o'clock, when the party returned to Atlanta, just as the Cowart House was illuminating Decatur street.

The hotel is admirably arranged for comfort and convenience. It is unnecessary to go into particulars. Sufficient to say that Colonel J. J. Morrison is the host, and Sam Gallier steward.

We mention a singular occurrence. When the party left the car-shed, not one of them were engaged; all were engaged (including grass widowers) before reaching Decatur. We have never seen a gayer or more pleasant assemblage. Can it be wondered at when it is remembered that [illegible] and fascinating Miss I— H—, the refined and intellectual Miss C— S—, the charming, vivacious Miss M— T— and the lovely, accomplished, and witty Miss M— R—, the soul of good humor, Miss S— E—, added the inexhaustible wealth of their loveliness, intellect and good humor to the occasion.

Two of the gay cavaliers "dancing attendance" on two of the fair belles attracted attention by their suave manners and courtly bearing—J. J. W—— and J. A. M —. The "Scottish Chieftain" and "Sir Walter Raleigh" also came in for a share of attention, on account of their fine physique. The latter was more thoughtful than he was at the carnival.

Among the distinguished guests present, we observed Col. T. C. Howard, editor of the Plantation; Napier Bartlett, of the New Orleans Times, accompanied by his handsome and gifted bride; Captain W. G. Newman, John Glenn, Esq., Captain Harry Jackson and others.

☞ A horrible intimation comes from Charlestown, Massachusetts. A lady, who has suffered lately from an inflamed neck, has been told by her physicians that it is caused by horrid insects called borers inhabiting the Hindoo bark braid of her chignon. She has cast the chignon from her, and has had her head shaved as smooth as a billiard ball, fearing some of the vile insects had taken up their abode in her natural back hair.

### Congressional.

WASHINGTON, May 26.—In the House a bill repealing the law in New Mexico, exempting real estate from execution, but exempting one thousand dollar homesteads was passed.

The River and Harbor bill was reported and referred to the Committee on Appropriations.

The Northern Pacific Railroad resumed several amendments of charter, crippling the enterprise, which was defeated. The bill as it came from the Senate will undoubtedly pass without amendment.

In the Senate, an application from Knights Templar for a loan of ten millions, (?) reported in joint committee, meeting with objections, went over.

The Senate was engaged all the morning on private land claims.

Nothing from committees.

Action on the North Pacific Railroad bill was the result of a compromise, which, it is asserted, secures a liberal railroad bill this session.

Mass of Fenian news shows that the capture of O'Neil, whom Marshal Foster and Deputy Fairly seized while the fight was progressing, thrust him into a back seat of the hack, and carried from the ground, demoralized the Fenians. O'Neil was committed in default of $20,000 bail.

The Fenians lost two killed and two wounded near St. Albans, by the Canadians posted behind trees and rocks. The Federal and British troops are advancing rapidly to the front, and unless speedily reinforced the expedition in the vicinity of St. Albans will be a fizzle. Prince Arthur has gone to the front from Montreal with troops.

NEW YORK, May 26.—The Alaska has arrived.

The threatened troubles between Peru and Bolivia have been averted.

A squall at Aspinwall unroofed many houses. Shipping uninjured.

LOUISVILLE, May 26.—The Rev. R. J. Wilson was elected Professor of Pastoral Theology of the Columbia, South Carolina, College.

BOSTON, May 26.—Troops from Forts Warren and Independence left for St. Albans by a special train.

TOPEKA, May 26.—Colonel Crosby, of Sheridan's staff, returned from Fort Hayes, and reports that the Northern Indians have runners to all tribes, asking them to join in a general war.

**THE WORLD'S WONDER.** DR. ABBETT'S ANTI-DYSPEPTIC —OR— LIVER MEDICINE

A SAFE and certain cure for all kinds of Liver Complaints, and all diseases and indispositions that originate from a diseased state or inactivity of the Liver, such as Chronic and Acute Inflammations of the Liver, Dyspepsia, Sick Headache, Sourness of the Stomach, Loss of Appetite, Lowliness of Spirits, Colic, Costiveness, Fever, Ague, Billious Fever, Dropsy and Jaundice.

These Medicines are purely Vegetable, and perfectly harmless; but their efficacy is too permanently established in all the Southern and Western States to require any further recommendations. The wise will not fail to give them a fair trial—this is all that is asked.

LAGRANGE, GA., DEC. 3, 1869.
MESSRS. CRAWFORD & WALKER, West Point, Ga. Gentlemen: Having witnessed almost daily, for the last fifteen years, the great efficacy of the preparation you are now putting up, known as "Abbett's Medicine," it affords me pleasure to state that I know of no combinations or preparation equal to it in the treatment of Liver Diseases of whatever character, and would cordially recommend it to all who are suffering from derangement of the Liver, and especially the Dyspeptic.
I am, very respectfully, T. S. BRADFIELD, Druggist.

MORNING EDITION.

### Supreme Court Decisions.

A few pamphlets left of the above. Lawyers, send in your orders to this office.

### Periodical Literature.

Phillips & Crew still continue to keep all the periodical literature. They have all the magazines for June—Godey, Harper, Demorest, Leslie, and others that delight the ladies so much.

☞ Senator Sherman says the strength of the Democratic party lies in the pesthouses of large cities. Better that than in their penitentiaries, where the Radical strength lies.

### "Let Us Have Peace."

The Southern Radicals are always yelling at the disorderly propensities of the Rebels. Senator Hamilton, in the debate on the 15th Amendment, exhibited his peaceable turn of Southern Radicalism, by saying that: "Instead of granting amnesty to the Rebel, we should take him by the throat and knock him in the head." "Let us have peace."

### Bullock.

In 15 months, Bullock spent $3 to Jenkins' $1 for Executive clerk hire.

In 15 months, Bullock spent $36 to Jenkins' $1 for Executive "incidentals."

In 16 months, Bullock spent $40 to Jenkins' $1 for extra printing.

The Legislature said Bullock drew $35,000 of State funds without authority of law. He afterwards drew $20,000 more when he knew the Legislature deemed it illegal.

### The Tribune on Bullock.

Horace Greeley proves to be very unmalleable stuff in the hands of Rufus. He refuses to look through Gov. Bullock's spectacles. He thus punctures Gov. Bullock's pet egotism that he is the Republican party of Georgia:

Gov. Bullock presents his arguments against the Bingham amendment to the Georgia bill and the points of his quarrel with Mr. Joshua Hill in a long letter, of which the noticeable passages we give elsewhere. In the quarrel the public have no interest, and it is rather impertinent in Mr. Bullock to thrust it upon the public attention. The point of the argument against the Bingham amendment seems to lie in the fact that its adoption will put an end to the official career of Gov. Bullock and the other members of the present State Government. Gov. Bullock asks us to believe that such personal fate will be the death of Republicanism in Georgia. Really, we can't. We have a little too much faith in the ultimate triumph of true principle to be easily convinced that the life of the party depends on continued office-holding by any particular man.

### Challenged on the Pardon Subject.

Two of Governor Bullock's personal organs, his Atlanta and Griffin concerns, seem galled by the way they wince at our allusions to Governor Bullock's abuse of the pardoning power. The Atlanta sheet dares us editorially, and the Griffin sheet dares us in a marginal note on a marked copy of the paper to copy an article from the Cartersville Express.

We have not the space, but will give fairly the substance of the article. The Sheriff of Fulton arrested Mr. R. L. Sellers and several other citizens for the murder of one Morris, who was accidentally killed in an attempt to arrest the notorious Jim Harcrow. Upon petition Governor Bullock pardoned the arrested parties. The Express compliments the Governor highly, and calls for more charity to the Governor in judging him about the pardoning business, and suggests that, to wipe out old scores, the liberal pardon policy is the best.

We give the view, reserving comment for the future, in order that the Governor may have the benefit of Democratic good opinion.

### Sherman and Hancock.

The papers are generally copying this rude reply of General Sherman to General Hancock's request to be put in Thomas' place in command of the Pacific:

"I am requested by the President to inform you that there is nothing in your personal relations to General Grant, or in your official relations to his administration, that could justify your promotion now, or lead you to expect it hereafter."

The New York Tribune says that this is incorrect. The true version is as follows:

"The President authorizes me to say to you that it belongs to his office to select the Commanding Generals of Divisions and Departments, and that the relations you chose to assume toward him officially and privately, absolve him from regarding your personal preferences."

This very materially alters the case, though it does not relieve Grant from a discourtesy and injustice that is well stated in the following reply of General Hancock:

"As the President leads me to believe that because I have not his personal sympathy, my preferences for command will not be regarded, notwithstanding my rank, I shall not again open the subject, but will add, in conclusion, that I think it is an unfortunate precedent to establish that military rank in time of peace, especially in the assignment of general officers to commands of divisions and departments, shall not have the consideration hitherto connected to it."

The Tribune claims that Grant is now paying Hancock back in his own coin, Hancock having snubbed him sometime back.

### The Georgia Bill.

The Herald correspondent at Washington thus prognosticates about the Georgia bill. He don't prospect brightly for Rufus:

There are many members who announce their intention to vote for the Bingham Amendment or any other measure that will result in ousting Governor Bullock. This, it is stated, is partly the result of the recent investigation of the Senate Judiciary Committee and partly owing to the belief that the condition of affairs in that State cannot be settled while Bullock remains Governor. Judge Bingham proposes to offer his amendment when the bill comes up in the House, though in a somewhat modified form. The chances are that Butler will be again defeated by having the Bingham Amendment added to the bill.

### Volume II of the War Between the States. By Mr. Stephens.

We have been favored with an advance copy of volume 2d of Mr. Stephens' book, "The War Between the States." The work is now going through the press of the National Publishing Company, of Philadelphia. This company has a Southern depot in Atlanta, with Mr. J. K. Jamieson as agent.

Mr. J. Henly Smith is agent for the sale of the work in Fulton and DeKalb counties, is now taking subscriptions, and will have a supply on hand for delivery to subscribers early next week. Persons wishing the book can obtain it by applying to him, or addressing him through the post-office.

Orion Dozier will also receive subscriptions at his new depot at the post-office.

We have simply glanced through the book, reserving a careful perusal and a full criticism for leisure hereafter.

It is very handsomely bound and printed, and is filled with fine engravings of Mr. Stephens, General Beauregard, General Toombs, Mr. Douglas, President Lincoln, President Davis, General Lee, General Joe Johnston and President Grant.

The personal experiences of these men are not the least interesting part of the work. Mr. Stephens is a very close observer of men, and an acute judge of character, and his opinions are full of weight and interest.

The contents of the work are varied and interesting. One would imagine them to be dry, from the nature of the theme; but written in Mr. Stephens' graphic and crystal style, and embracing the leading topics and characters on both sides of the great struggle, and utterly free from prejudice, the book is a most fascinating one for every class of readers.

We close this brief notice with the following estimate of Grant. Mr. Stephens says of the President—then General Grant—in January, 1865, that he left "The conviction on my mind, that, taken all in all, he was one of the most remarkable men I had ever met, and that his career in life, if his days should be prolonged, was hardly entered upon; that his character was not yet fully developed; that he himself was not aware of his own power; and that if he lived, he would, in the future, exert a controlling influence in shaping the destinies of this country, for good or for evil. Which it would be, time and circumstances alone could disclose. That was the opinion of him then formed, and it is the same which has been uniformly expressed by me ever since."

### A Famine in Virginia.

In Appomattox and neighboring counties in Virginia, there is a genuine famine. Hundreds are reduced to beggary. The drought of 1869, the ruin of the country by Grant's army sacking it, the inability of property-holders to give labor to the people as the result of Government measures, and the social disorders, are the causes.

On the fourth of July a great race is to come off between a New Orleans and New York fire company, for a purse of $1,000. The challenge was given by the New Orleans company to any organization in the United States to run with hand engines for the above amount. The race is to be run on the Long Island Course, distance half a mile, and throw water the quickest. We noticed a short time since, in one of the New Orleans papers, where the contestant in that city, while out for practice, made their half mile and threw a stream in two minutes and seven seconds.

John Allen, known as the wickedest man in New York, and at the present the keeper of a grocery in the Fourth ward of that city, not long since notified the people of the Howard Mission, who had supposed that they had converted him, that he has merely played the part of a hypocrite, and that he had never had a real change of heart.

At Indianapolis a successful experiment was tried recently, with a new invention which reduces the danger and destructiveness of fires. One of the strangest newspaper schemes ever devised is that just announced by the proprietors of the Saginaw (Michigan) daily and weekly Courier. ### OUR PARIS LETTER.

#### Conspirators—Secret Plots Against Napoleon—Demoralization of the Revolutionists.

[Special Foreign Cor. of The Constitution.]

PARIS, May 7, 1870.

The hardest worked public servants at the present moment are the detectives and law officers of the crown. In the daily casting of their net, the police catch exactly what they want. By this time, there ought not to be a conspirator in Paris. Brutus is at large—the Gracchi in Leicester Square, but the would-be Casca is in the Manzas prison. There is a good deal of the *gamin* in the Parisian character, and much of the *blageur*. Here is the infernal plot revealed by the confessions of the conspirators themselves, and supported by documentary proof, and yet several look upon the whole thing as the work of the police! The police are thus well-employed, organizing plots and then suppressing them. It is natural, perhaps, after all, when an accomplice "blows" on his companions, he is called a *mouchard*, as pickpockets, when closely pursued, cry "stop thief," to distract a crowd. Considering the excitement to which many weak minds have been subjected by incendiary orators and writers, the wonder rather would be that there was no conspiracy.

The opposition journals taunted ministers with having no evidence of a plot. The official journal supplies the evidences of three or four, and convokes the High Court to try them. Yet the same journals blame the cabinet for its sage conduct, in satisfying a general demand to know "where are we now." The case for the prosecution is stated there can be no doubt of the plots; judgments must be suspended till the accused explain. In all the conspiracies which have taken place under the second Empire, they have been marked by a great simplicity. Some discontented men meet, plan assassinations, without ever thinking of what government is to succeed, until one of the party having fear about his head, visits the minister of police. In the case of Flourens, he is a man well-educated, and yet he addresses the deserter, Beaudry, as his dear Harmodius, as he would Moecher Louvel or Ravaillac, and signs "Gustave." However, in all criminal trials, there are traces of imprudence, that a child of three years old would not commit. It is his visiting card, whereon he wrote, "Starting for England," and sent it to the Chief of Police, as a piece of malice, at not being able to arrest him for his playing at insurrection in February last, that will identify this letter of instructions to Beaudry, to kill Napoleon.

The life of Napoleon is still a necessity for France. If the congratulations received by him on his escape from the plots in question have not been very demonstrative, they do not the less heartily exist. France does not understand the utility of "indignation meetings" at present. This latest outrage proves the revolutionary party to be utterly demoralized. There can be no hesitation in taking sides where politics rest upon the dagger, the revolver and bombs. I yesterday stopped to look at, in a shop window, a collection of the red heroes of 1793 and 1870, and was struck by a common expression of *wildness* and determined recklessness among them all. One paper gives a series of articles popularizing the preparation of gun-cotton, Greek fire, shells, and such fire-works, for the use of patriots. Another publishes the autograph letters of eminent exiles, etc., on the situation. As usual, Victor Hugo is amusing, and Garibaldi absurd.

In all these turmoils of excitement, the plebiscite is likely to be forgotten, or so tortured and twisted as not to be understood. The issue simply is, not will you have the empire, but will you have it as it was in 1852, or as it is in 1870. Some papers give a thousand reasons for saying "no;" but wind up by recommending to vote "yes," and many leading men are like coquettes, "off and offing," but will not state their opinion. BOURBEIFF.

### NIGHT DISPATCHES.

WASHINGTON, May 26.—Judge Daley, in the Court of Common Pleas, decides that the custom of brokers and merchants must govern transactions during the panic of September.

RICHMOND, May 26.—The Municipal election resulted in the election of H. R. Ellyson, Mayor, and whole Conservative city ticket by a handsome majority. The Conservatives are marching around in pouring rain to the different newspaper offices cheering for their success. In Norfolk, it is estimated, that the Conservatives have carried the city by fifty majority.

TORONTO, May 26.—The Fenians are retreating from Pigeon Hill, leaving everything behind. No loss of life on the Canadian side. Huntington is now the point of interest. Every preparation is made.

CINCINNATI, May 26.—The Reformed Presbyterian Synod, voted 10 for and 25 against the proposed basis for union. The proposition for a new union was completely defeated.

NEW YORK, May 26.—The Alaska brings advices from the Darien survey to May 16. They had reached twelve miles inland. The highest elevation reached was a hundred and twelve feet. Heavy rains retard the operations. Eleven persons are on the sick list of fever and ague. The expedition is expected to sail for home on the 27th of May.

RALEIGH, May 26.—The latest news from Yanceyville, North Carolina, where State Senator Stephens was murdered last Saturday, still leaves the matter enveloped in mystery. The attempt to fasten the perpetration of the tragedy upon any political party, is countenanced only by those wishing to make political capital out of the horrible affair. The citizens of Yanceyville, irrespective of party, held a meeting on the 23d instant, denouncing the outrage—all the prominent Democrats of the place taking an active part in it.

LOUISVILLE, May 26.—In the Presbyterian General Assembly yesterday, the subject of most interest was the reception of delegates from the Northern Presbyterian Church, consisting of the Rev. Dr. Backers, of Baltimore, Rev. Dr. Van Dyke, of New York. They presented resolutions of that Assembly, expressive of fraternal regard, and followed them with remarks, in which it was stated that they came not to ask for re-union, nor to ask for immediate correspondence, but to ask the appointment of a committee to meet a similar committee, appointed by the Northern Assembly, to confer respecting the varied matters and questions of jurisdiction and property rights between the two Assemblies, and to secure, if possible, an adjustment of all differences between the two bodies on a basis just and honorable to all parties, and worthy of Christian men. While they were speaking, breathless interest and deep emotion formed a scene that will not be forgotten. The kind words of the speakers evidently found a lodgment in the hearts of those to whom they were addressed. Overtures were referred to Committee on Foreign Correspondence, which was directed to prepare a well considered reply.

### FOREIGN.

BERLIN, May 26.—King William, in closing his Ruchstag, said its action would go far to assure foreign people that the Confederation is a powerful agent for the preservation of universal peace.

Spanish vessels are watching the Cuban coast closely to intercept filibusters.

Six persons were burned in the Steamship Valparaiso.

WALTHAM

WATCHES!

THE extensive use of these Watches for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these time-keepers.

More than 450,000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watch-making originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public, demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success, and a great improvement on any stem winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mentioned improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks:
American Watch Co., - - - Waltham.
Appleton, Tracy & Co., - - - "
P. S. Bartlett, - - - "
William Ellery, - - - "
Home Watch Co., - - - "

For sale at retail by all respectable dealers.

A descriptive circular giving much useful information sent to any address on application.

No watches retailed by the Company.

"BAD BLOOD."

"The Life is the Blood."

FROM it we derive our strength, beauty, and mental capabilities. It is the centre of our being....... painful effects are visible in many shapes, prominent among which is

SCROFULA.

This is a taint or infection of the human organism, and probably no one is wholly free from it. It exhibits itself in various shapes—as Ulcers and Sores, Decayed Bones, Diseased Scalp, Sore Eyes, Weak and Diseased Joints, St. Vitus' Dance, Foul Discharges from the Nostrils, Eruptions, Glandular Swellings, Throat Affections, Rheumatism, Heart Affections, Nervous Disorders, Barreness, Disorders of the Womb, Dropsy, Syphilitic Affeions, Liver Complaint, Salt Rheum, Dyspepsia, Neuralgia, Loss of Manhood and General Debility.

It has been the custom to treat these diseases with Mercury and other Mineral substances, which, though ometimes producing a cure, often prove injurious and entails misery in after life. The long known injurious properties of these so called alteratives and purifiers has led the philanthropical man of science to explore the arena of nature, the result of which has been the discovery of a vegetable product which possess the power of eradicating these Taints from the Blood.

A NEW DISCOVERY!!

PHALON'S

"VITALIA;"

OR,

Salvation for the Hair.

CLEAR AS WATER!
WITHOUT SEDIMENT!!
OPEN TO THE LIGHT!!!

*For Restoring to Gray Hair its Original Color.*

PHALON'S "VITALIA" differs utterly from all the hair coloring preparations heretofore used. It is limpid, sweet smelling, precipitates no muddy or slimy matter, requires no shaking, imparts no stain to the skin. Hold it to the light and it is clear and cloudless. It leaves no mark on the scalp; yet it reproduces in gray hair the natural color that time or sickness may have bleached out of it.

☞ Phalon's Vitalia ☜ is for one sole purpose, that of reproducing, with absolute certainty, the natural color of the hair. It is not intended as a daily dressing, nor for removing scurf or dandruff; nor for curing baldness; nor for stimulating the growth of the hair.—These objects may be accomplished after the color has been fixed with the Vitalia, by Phalon's Chemical Hair Invigorator.

THE VITALIA is a harmless and unequaled preparation for the reproduction of the original hue of gray hair, and nothing else. This is accomplished in from two to ten applications according to the depth of shade required. Sold by all druggists.

**Index to New Advertisements.**

Peachtree Property—Wallace & Fowler.
Five superior City Lots—Thomas Kile.
Early Yellow Six Weeks Beans—Mark W. Johnson.
Brick Dwelling for Rent—L. Dean.

O. P. McGuire has fine Pine Apples.

We are rejoicing under the benignant dispensation of Providence in fine showers.

Wallace & Fowler sell valuable real estate on Peachtree street this afternoon.

Trade was brisk on Broad street yesterday evening. Echols sold several mowers and reapers, and William Wood four coffins.

We learn that during the present week, Chief Justice J. E. Brown purchased 240 acres of land in Gordon county for $9,000.

Memorial.—The ladies connected with the memorial supper will have their final meeting at Thompson's Restaurant at 10½ o'clock this morning.

Rich Well.—The lemonade well at the Carnival netted $80 00. Although the crowd *rushed on*, the fair Naiads did not weary in well-doing.

Lucky.—The magnificent memorial cake exhibited at the supper was raffled off last night. Mrs. B. E. Crane was the lucky winner of the prize. We know of no one more worthy of it.

Singular.—Two members of the legal fraternity were clad yesterday, each in a new suit of clothes. Is it not singular that they should don them so soon after the fire?

Kittens.—Farmer Fogy returned yesterday, from a fishing excursion to Gordon county, with two little kittens, alias cat-fish, weighing respectively forty and forty-five pounds.

Mr. Savage gave bond yesterday, before Justice Spencer, to answer the charge of assault and battery upon a 15th Amendment at the American Hotel. The Amendment was not hurt.

The Good Templars' picnic will be on Saturday, May 28. If unpleasant, it will be on the Saturday following.
All necessary arrangements have been made to make it a success.

The Biorama at DeGive's Opera House will be exhibited to-night and to-morrow night for the last time in Atlanta. All those who have seen it agree in pronouncing it the most beautiful panorama which has ever been exhibited here, and well worth seeing.

Habeas Corpus.—Judge Pittman, yesterday, discharged Julia Low, (colored,) on her own recognizance for $500. She was brought up before him on a writ of habeas corpus, having been confined in jail on a charge of perjury, but the last grand jury failed to find a true bill against her. Messrs. Gartrell & Stephens appeared in Julia's behalf, and Messrs Thrasher & Thrasher for the State.

Fine Flour.—Messrs. Stephens, Flynn & Co. are the sole agents, in this city, of the Champion Mills flour, of Rome. This flour is made from choice amber wheat, and having tested it, we can endorse it as a superior brand. Messrs. S., F. & Co. have a full stock of this flour, and guarantee every sack of it to come up to the representation. If it does not, it can be returned at their expense. It is put up in sacks of 24, 48 and 96 pounds, and sold at low figures.

Board of Health.—The members of the Board of Health are requested to meet at my office, near Young Men's Library Association, Granite Block, Broad street, at 4:30 o'clock, P. M., to-day.
Parties having complaints to prefer in reference to the existence of any nuisance, or desire to offer other matter that should be brought to the cognizance of the Board, are requested to communicate with or meet the body while in session, and present the same, in order that they may be considered, and such action taken as a due regard for the health of the city may justify.
J. N. Simmons.

Sad Accident.—We gather further particulars of the sad accident mentioned in our evening edition of yesterday. Mr. Simeon W. Thornton, while attempting to get on the tender of the switch engine "New Hampshire," lost his foothold and fell on the track. The wheels passed across his breast, cutting his body and heart in two, and causing his instantaneous death. He was a good citizen, an exemplary Christian, and industrious man. He leaves a wife and several children. We learn that he had been in the employ of the State Road but for a short time. He had his life insured in the Georgia Mutual, of Macon, for $5,000, but not being able to make the first payment, the policy was cancelled several weeks ago.

Violation of City Ordinance.—*Mr. Local*: Permit me through your columns to call upon his honor the Mayor to put in force at once the 377th section of the city code, which reads as follows:
"No person shall put any trash, lumber, wood, box, glass, or other obstruction, in any public street, lane or alley, or on the sidewalk, (except in the case of building) &c., and all persons violating this ordinance shall pay a fine not exceeding one hundred dollars."
Flagrant violations of this city law may be seen at every hand, and it has become a nuisance of such magnitude as to be no longer tolerated. Will the Mayor please make a note of this fact?

Important Decision.—On yesterday an interesting case came up before Justice Spencer, involving the homestead act. It arose on a motion to set aside a garnishment on a judgment obtained against a man named O'Shields. The garnishee answered that he was indebted to O'Shields for groceries. O'Shields claimed that the garnishment should be set aside, as the groceries had been set apart as personalty under the homestead act. From the evidence it appeared that Mr. O'Shields, in December, 1869, had his stock of groceries set apart as personalty, but since then has sold and replenished the stock from time to time. The position assumed by his counsel is that he is entitled to the "rent, profit or produce" of the personalty so set apart.
Justice Spencer ruled that Mr. O'Shields could not hold transferable personalty under the homestead act; that the personalty could only be sold in accordance with law. Articles now claimed were never set apart, not being in his possession at that time. B. H. Thrasher, for O'Shields; T. P. Westmoreland, contra. The case, we learn, will be certioraried.

Room Western & Atlantic Railroad, Investigating Committee, Thursday, May 26, 1870.

The committee met at the usual hour. All the committee present, except Wooten.
The committee was called to order by the Chairman. Journal of yesterday read and approved.
Mr. Lee proposed the following resolution, which was adopted unanimously:
Resolved, That it is the pleasure and desire of this committee, that Colonel Phillips, member of this committee, and Colonel D. P. Hill, clerk of the same, do pass as though there had been no misunderstanding between them, until the committee shall have discharged its duties. We recognize in them both, honorable gentlemen. When the duties of the committee are ended, then they can pursue such course under all the circumstances as to them may seem best; this we believe to be the interest of all parties concerned, and that it will facilitate the labors and add to the social relations of the committee, and we request that the two gentlemen signify their assent to the same.
(Both parties arose and agreed to be governed by the spirit of the resolution, both in their official and social relations.)
A communication was received from Mr. F. N. Chisolm, of this city, stating that W. P. Chisolm was in possession of facts which he desired the committee to look into, and asked that he be called before the committee. Under the rules, the communication was filed with the name to be called up in the future.
A. Pope introduced and sworn—Says he is General Freight Agent for the road. Was appointed to that position, January 1st, 1870. Receives a salary of $200 per month. Previous to January was freight accountant. Says there has been lost and damaged between the 1st of January and the 1st of April, 1870, goods to the amount of $1,631 65—January, $422 56; February, $5 99; March, $1,203 10. States that these losses occur by accidents to cars, by cars breaking when thought perfect when loaded, by stock being killed during transit, by run-offs, by mistakes in checking, etc., all within the ordinary risks of transportation. Witness has had fifteen years' experience in railroading, and thinks the losses and damages over this road of less per centage than any road he has any knowledge of. Knows of no incompetent officer or employee on the road. Thinks no officer or employee could have been interested in the losses and damages without witness finding it out.
Over-charges for the same time have been made and refunded to the amount of $3,465.05; these over-charges occur by misunderstandings of existing tariff by agents making the assessment, by charges being made at tariff rates at distant shipping points, and intermediate agents, not being advised of the rate given in the shipper's bill; these are incident to all roads whose tariffs necessarily fluctuate to compete for business; the road sustains no loss by over-charges, as it is only just to the shipper to return him the amount charged over the tariff agreed upon; witness has one clerk in his immediate office—W. J. Spears—who receives one hundred dollars per month; he is properly lost freight clerk; witness keeps up his own correspondence, etc.
Witness dismissed.
Jesse W. Jackson, sworn—says he is local freight agent at Atlanta; receives a salary of two hundred and fifty dollars per month; received under Hulbert two hundred dollars per month; thinks his predecessor received two hundred and fifty dollars per month; knows of no officer or employee who is interested in any ware-houses where freights are stored; witness stores freights, when the depot will not hold them, with Glenn & Wright, L. H. Harwell & Co., and W. L. Clay & Co., but not until the consignee (if possible) has been notified, then at the expense of the consignee, and always stores where they will be insured.
Witness suspended.
Mr. Maxwell was granted leave of absence until Monday.
The committee went into consultation, and our Reporter left at one o'clock.

"Comparisons are Odious."—In the report of the proceedings of the Investigating Committee, Western and Atlantic Railroad, Mr. E. F. Blodgett testifies that "no record could be found of the action of his predecessors as Purchasing Agents."
We cite a few facts that will enlighten the public mind and show how economically and accurately Major Wallace guarded the public interest in the matter of purchases, etc.
Mr. T. E. Walker succeeded Mr. C. B. Wallace as General Agent. It was his duty to perform the clerical part of the business, receiving and sending orders, under the immediate direction and control of the Superintendent. When the bills were rendered, they passed into the hands of the Auditor, whose duty it was, by law, to inspect and certify as to correctness. From him they passed to the Book-keeper in form of "passed bills;" the Book-keeper entered on expense book, and the Treasurer paid, after receiving the approval of the Superintendent.
The General Agent also acted as Secretary to the Superintendent, accompanied the Supervisor each pay-day and assisted him to "pay off" for labor, wood, ties, &c., and performed all other work that the Superintendent saw proper to designate as his duty; thus performing the work that it now requires an increased force to discharge. A full and complete record of all purchases made and paid for is on file in the Auditor's office as "passed bills" in expense book and on the ledger in the General Book-keeper's office.
We state this as an act of justice to an administration that stands pre-eminent for success and faithful discharge of duty from the highest officer to the humblest employee. For the services rendered by the General Agent, he received the salary of eighteen hundred dollars per year, and had no assistant.
If the Western and Atlantic Railroad had a Purchasing Agent under Colonel Hulbert's administration, it is not known to the writer, but we are under the impression he required a clerk to forward orders, check up bills and assist him otherwise.
Will not the committee inquire whether it does not now cost the State of Georgia some $6,000 or $8,000 to perform the duties that only cost $1,800 under Major Wallace's administration?

Rosa Bonheur has declared her intention to paint, hereafter, only wild beasts.

Benjamin Gibbs, of Mississippi, is awarded the belt for being the homeliest man in the University of Virginia.

Mr. and Mrs. Stephen Cole, of Charleston, Vermont, are looking forward eagerly to the celebration of the seventieth anniversary of their marriage next week.

Lord Derby, whose engagement is announced in England, marries a family as well as a wife. He is 44 years old, and the Dowager Machioness of Salisbury, his intended, is 46, with five children, the youngest a young man of 22.

Wheat—Millers are paying 1 10a1 20 for red and white. Dealers are paying along the upper road 1 00a1 05, delivered in the depots.
Beef Cattle—Active demand for well fattened stock, and prices firm. No. 1 heavy 5½a6 gross.
Hay—Good demand; prime timothy baled, 1 20a1 25; by wagon load 1 00.

Nashville, May 24.

Flour—The trade in flour has been very active during the week, both in a local point of view and in the shipments South. The market continues steady in price as follows: Superfine 4 50; extra 5 00; family 6 00; fancy 6 75.
Corn—The market during the week has been comparatively quiet. Sales to-day of 300 bushels at 1 30 per bushel, sacked and delivered in depot.

Cincinnati, May 23.

Corn—The receipts early in the week were liberal, and a further decline of 5a6c. per bushel was established, though about the middle of the week an improved demand was experienced, and a portion of the decline was recovered and the market closed very firm. The distillers are buying pretty freely, and there has been a fair demand on Southern account. The export demand is mainly for white and prime yellow, and the offeriings of such being only moderate, some difficulty was experienced in filling orders. Sound mixed ear sold today at 96a97c., and shelled at 98a98c., but poor qualities are forced off at the best rates they will demand. Pure white and yellow shelled is held at 1 01a1 02, and sales were made at 1 10 including sacks.
Bulk Meats.—There were large sales early in the week, both here and at interior points, the transactions footing up about 1,500,000 pounds. The purchasers were mainly on Eastern account. The demand was freely met and no advance was obtained. For the past three days, however, there has been a quiet market, and it so closes, though there was no pressure to sell, and prices were maintained. Shoulders are quoted at 12c; rib sides, 14⅝a15c; clear rib sides, 16c, all loose. Nothing doing in hams.
Bacon—Shoulders were in good request early in the week, and prices advanced to 13⅛, but the orders here have about all been filled, and purchases could have been made to-day at 13⅜. Clear rib sides were to-day at 16⅝, and clear sides at noon sold, to a moderate extent, at 17⅜, though about the middle of the week were ⅛ higher. Sugar-cured hams close firm at 20 for good city brands, canvased and packed.
Lard—This article has been neglected, and the market ruled dull all the week. Concessions wers made, but it did not lead to any busines, and it closes weak. Kettle rendered leaf can now be had at 16 for city and 15¾ for country, and prime steam is offered at 15¾.

Koskoo.—This medicine is rapidly gaining the confidence of the people, and the numerous testimonials of its virtues, given by practitioners of medicine, leaves no doubt that it is a safe and reliable remedy for impurity of the blood, liver disease, etc.
The last Medical Journal contains an article from Prof. R. S. Newton, M. D., President of the E. Medical College, city of New York, that speaks in high terms of its curative properties, and gives a special recommendation of Koskoo to the practitioners of medicine. This is, we believe, the first instance where such medicines have been officially endorsed by the Faculty of any of the medical colleges, and reflects great credit upon the skill of Dr. Lawrence, its compounder, and also puts "Koskoo" in the van of all other medicines of the present day. feb26-d&w6m

A Few Words of Weight.—"Do you mean to say, madam, that he has taken no other medicine?"
This question was asked the other day in relation to a young man, "the only son of a widow," who was then rapidly recovering from a state of absolute prostration, occasioned by chronic indigestion. It was asked by a friend of the family of the invalid's mother. Mrs. Kiernan, 95 Abingdon Square, New York.
The medicine referred to was Plantation Bitters. "I do mean to say it," replied Mrs. K.; "we had tried twenty other remedies before, without the slightest benefit; but we tried none afterwards, for the Bitters proved all sufficient."
The lady herself is the authority for this statement; and she further states her belief that the restorative in question is the best tonic and invigorator ever administered.

Twenty-five cents will buy a packet of Sea Moss Farine of your grocer or druggist, which, in ten minutes, will make sixteen quarts of Blanc Mange, Puddings, Custards, &c., &c. may24deod1w

Remedies for all diseases can be compounded so as to be agreeable to the taste, and pleasant to take, and always effective. To prove this fact, we point with pride to the great tonic of the age, Liffman's Great German Bitters. For upwards of a century, they have been used in Germany with great success, and who can tell how many thousands have been saved from suffering, and from an early grave, by taking them. They are pronounced to be not only the best tonic in the world, but the most delicious and delightful cordial ever known.

# ARGYLE BITTERS.

The superiority of the above named article over any other Bitters is now admited in every instance where a comparison has been made. The Proprietors most respectfully inform the public that the high reputation they have so justly acquired has been on their intrinsic merits alone. The ingredients used, in point of purity, excellence and medicinal qualities can not be surpassed, imparting a richness and delicacy of flavor heretofore unequaled by any combination of medicines having any claim for the relief of the following complaints, for which the

ARGYLE BITTERS

are especially recommended, viz:

Dyspepsia, Indigestion,
Diseases of the Stomach,
Nervousness, Jaundice,
Billious Complaints,
Costiveness, Cramps,
Flatulency, Griping Pains,
Heartburn, Liver Complaint,
Loss of Appetite,
Lowness of Spirits or Melancholy,
Pains in the Side or Back,
Sick and Nervous Headache,
Etc, Etc.

All the virtues of the true CALISAYA BARK are to be found in the ARGYLE BITTERS, making them the best Appetizer and gentle Tonic in all cases of General Debility and Derangement of the Stomach and Digestive Organs, that it is possible to produce.
Being mild in effect and pleasant to the taste, they are especially recommended to delicate females as a gentle soothing and invigorating tonic.

The following important Certificate from Dr. L. L. Crawcour, an eminent Chemist and Physician of this city, speaks so favorably of the Argyle Bitters, we deem it superfluous to add anything further:

261 Camp Street, New Orleans, September 1, 1869.

*Messrs. Wheelock, Finlay & Co.:*
Gentlemen—I have carefully examined your Argyle Bitters, and from my knowledge of their ingredients can safely recommend them as a good and reliable tonic and especially as a corrective of that morbid desire which so frequently affects those addicted to the use of ardent spirits. The chief ingredients being the best Calisaya Bark, renders them peculiarly fitted for the use of those residing in malarious districts, as they will not only act as a preventive against intermittent disease, but in a large number of cases may cure it when it has made its appearance.

CARDWELL'S
Improved Thresher and Cleaner
We take great pleasure in offering to our friends the above named Thresher and Cleaner, which has been greatly improved during the past year, and which for simplicity of construction, rapid threshing and freedom from the usual derangements of this class of Machinery, is without a rival. It will do more work with less power and fewer hands to attend it than any other Thresher and Cleaner in use. We have made some important improvements in this Machine for the coming season, and can now confidently recommend it as the best and simplest Thresher and Cleaner in the country.
All farmers will appreciate the convenience of having a Thresher that can be hauled into a wheat field on its own wheels and put to work at once, without trouble or inconvenience, and that will thresh, clean and bag the wheat at one operation, and do it thoroughly, wasting no grain, and cleaning as well as it is usual for such Machines to do.
We have taken the Premium at every Fair where exhibited, including the Virginia State Fair at Richmond, and the Fairs at Lynchburg, Wytheville, etc., where it came in competition with the Geiser, Pitts, and many others. On account of the great demand for these Machines we have only been able to make one size, being a 28 inch Drum with 34 inch Straw Carrier, the wide Straw Carrier insuring the perfect separation of all grain from the straw. Its capacity is 300 bushels per day. Power required, 4 strong horses or 6 mules.
Price without Horse Power, $250.
Price with Double Gear or Carey Power, $400.

Great, Positive, and Unfailing CURE
FOR ALL DISEASES OF MALARIOUS ORIGIN.
Fever and Ague, Intermittent Fever, Chill Fever, Remittent Fever, Billious Fever, Dumb Ague.
And the long train of disorders following these when neglected.
SWEET QUININE
is made solely from PERUVIAN BARK (so is Bitter Quinine,) therefore is of Vegetable origin, and not a Mineral Poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.
SWEET QUININE
acts as an antidote to, as well as a cure for malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for
SWEET QUININE
over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.
SWEET QUININE
is in two forms—in Powder, for the use of Physicians and Druggists, and Fluid, for use in the family and for the general public.

ROSADALIS!
ROSADALIS
The Great American Health Restorer, purifies the blood and cures Scrofula, Syphilis, Skin Diseases, Rheumatism, Diseases of Women, and all Chronic Affections of the Blood, Liver and Kidneys. Recommended by the Medical Faculty and many thousands of our best citizens.
Read the testimony of Physicians and patients who have used Rosadalis; send for our Rosadalis Guide to Health Book, or Almanac for this year, which we publish for gratuitous distribution; it will give you much valuable information.
Dr. R. W. Carr, of Baltimore, says:
I take pleasure in recommending your Rosadalis as a very powerful alterative. I have seen it used in two cases with happy results—one in a case of secondary syphilis, in which the patient pronounced himself cured after having taken five bottles of your medicine. The other is a case of Scrofula of long standing, which is rapidly improving under its use, and the indications are that the patient will soon recover. I have carefully examined the formula by which your Rosadalis is made, and find it an excellent compound of alterative ingredients.
Dr. Sparks, of Nicholasville, Ky., says he has used Rosadalis in cases of Scrofula and Secondary Syphilis with satisfactory results—as a cleaner of the Blood I know no better remedy.
Samuel G. McFadden, Murfreesboro', Tenn., says:
I have used seven bottles of Rosadalis, and am entirely cured of Rheumatism; send me four bottles, as I wish it for my brother, who has scrofulous sore eyes.
Benjamin Bechtol, of Lima, Ohio, writes I have suffered for twenty years with an inveterate eruption over my whole body; a short time since I purchased a bottle of Rosadalis and it effected a perfect cure.

THE ATLANTA CONSTITUTION.

*PUNCH SONG.*

SCHILLER.

Four elements joined in
An emulous strife,
Build up the world and
Constitute life.

First from the citron
The starry juice pour:
Acid to Life is
The innermost core.

Now let the sugar
The bitter one meet;
And the strength of the acid
Be tamed with the sweet.

Bright let the water
Flow into the bowl;
For water, in calmness,
Encircles the whole.

Next, shed the drops
Of the spirit within;
Life but its life from
The spirit can win.

Drain quick—no restoring
When cool can it bring;
The wave has lost virtue
Drunk hot from the spring.

## Historic Reminiscences of Athens University.

Correspondence Atlanta Constitution.]

ATHENS, May 23, 1870.

*Mr. Editor:* One of the editors of the Georgia Collegian, a paper published at the State University, is writing a history of the College. Thus far, the connection between the Legislature and the institution has been traced; and the early affairs of the University have been discussed. In the next issue of the Collegian is a biographical sketch of the first President, and the members of the first class which graduated in 1804, among whom was the distinguished Judge Clayton.

We desire the relatives and friends of the early graduates to furnish us materials for these biographical sketches. Information is solicited relative to Wilson Bird, Gabriel Mathews, Stephen W. Harris, Roland Thurmond, class of 1805; T. M. Berrien, S. Boykin, Early Harris, Reuben Hill, Thomas Lamar, Jacob and John Whitehead, class of 1806; John Allen, John Douglass, Thomas Grier, T. N. Hamilton, S. W. Meigs, Jacob Merriwether, Joseph O'Neil, George Putnam, class of 1807; Atkinson, Cox, Davis, Early, Gresham, Meriwether, Thomas, Woodruff, of 1808; Strong and Scott, of 1809; Cary, O'Neal, Mitchell and Tait, of 1810.

Our apology for addressing THE CONSTITUTION, is our knowledge of the fact that it reaches every section of the country. We trust that the friends of the above parties will aid us in the work of giving them an historic recollection.

## An Interesting Letter from Georgia Concerning Hon. A. H. Stephens.

Correspondence of the Richmond Dispatch.]

CRAWFORDVILLE, TALIAFERRO CO., GA., May 16, 1870.

I write from this busy little county-seat, famous as the residence of Hon. Alexander H. Stephens, our distinguished ex-Confederate Vice-President; and knowing that anything concerning the great Georgia statesman will be interesting to your Virginia readers, I will give you a few items.

I spent the day recently with Mr. Stephens at his residence here (Liberty Hall). This is an unassuming country house, a white frame building erected with an eye to comfort and convenience, which end its proprietor has most successfully attained. It is the coolest, coolest, most inviting bachelor's retreat I ever visited—opening upon a grassy lawn, unusual in this State, and shaded by a number of pretty oaks, locusts, etc.

I found Mr. Stephens looking very pale and emaciated, reclining in his invalid chair, and intently discussing some law points in a murder case with some legal friend. Though extremely feeble, when interested or excited he would sit up erect, his remarkable eye would sparkle with its old fire, and he would address his hearers in an animated and always convincing strain. It is his custom, when the weather is fine, to sit in his easy chair in his verandah, and as he converses wheels himself slowly back and forth by a convenient arrangement which costs him but little effort, and, as he says, exercises and strengthens his arms and chest. When the sun gets low, he calls for his crutches and hobbles slowly over the lawn and through his well kept garden, in which he seems much interested. Having but a partial use of his legs, Mr. Stephens walks with difficulty on his crutches. He says his hip is dislocated, and thinks he will never be able to lay his crutches aside.

Mr. S. has just put his finishing touches to his second volume of "The War between the States," and some copies are now in the hands of the agents. This work is an invaluable addition to our literature, giving what has never yet been attained—an impartial history of our late troubles. The author manifests great interest in the fate of his work. He told me when the first volume appeared, closely followed by a lengthy criticism in Bledsoe's Review, he read the whole fifty-one pages before he put it down, which he did with a sense of relief; "his ship had weathered that gale and not a plank was sprung, and he felt that she was seaworthy."

But I may be tiring your readers with this panegyric, as it might be called, for I have also been possessed with the strong sentiment of love, respect, and almost veneration, with which every Georgian regards this great and good man. Truly is he embalmed in the hearts of all, and his good deeds will live after him. Many now in stations of affluence and honor in church, in State, and in the private walks of life, look up to him as a father and a benefactor, who have found them in poverty, gave them an incentive, encouraged with the kind and hopeful words, and then furnished the means to enable them to rise and become useful and, in some instances, eminent citizens.

## Taxation in the Best Government the World Ever Saw.

The following paragraph is from a speech by Hon. S. S. Marshall, of Illinois, on the tariff bill:

The farmer starting to his work has a shoe put on his horse with nails taxed 67 per cent.; driven by a hammer taxed 54 per cent.; hitches his horse to a plow taxed 50 per cent.; with chains taxed 67 per cent. He returns to his home at night and lays his wearied limbs on a sheet taxed 58 per cent.; and covers himself with a blanket that has paid 250 per cent. He rises in the morning, puts on his humble flannel shirt taxed 80 per cent., his coat taxed 50 per cent., shoes taxed 35 per cent., and hat taxed 70 per cent.; opens family worship by a chapter from Bible taxed 25 per cent., and kneels to his God on an humble carpet, taxed 150 per cent. He sits down to his humble meal from a plate taxed 40 per cent., with knife and fork taxed 35 per cent.; drinks his cup of coffee taxed 47 per cent.; seasons his food with salt taxed 100 hundred per cent., pepper 207 per cent., or spice 397 per cent. He looks around upon his wife and children, all taxed in the same way; takes a chew of tobacco taxed 100 per cent., or lights a cigar taxed 120 per cent., and then thanks his stars that he lives in the freest and best Government under Heaven. If on the Fourth of July he wants to have the star-spangled banner on real bunting he must pay the American Bunting Company, of Massachusetts, 100 per cent. for this glorious privilege.

## Methodist Lay Delegation.

The movement in behalf of allowing lay delegates to vote in the Conferences of the Methodist Episcopal Church has finally triumphed. The Methodist says:

After eight years of unceasing effort, the Methodist has the satisfaction of announcing the triumph of lay delegation. The East Maine Conference, the last in the United States to declare its opinion, has given a vote of 44 for to 15 against. This, with the surplus available, secures the necessary three-fourths, even though the vote of the Germany Conference should be unanimously against. But such a vote in Germany is not supposable; on the contrary, all our advices leave us to expect that the vote of our brethren in Europe will be unanimously for us. By a singular coincidence, the Germany Conference meets this year in one of the cities of the Palatinate, the ancestral home of the founders of American Methodism.

☞ The horse railroad which has been opened in London proves very successful. It is an exact imitation of the American institution, and is fitted up in the same way. One of the directors of the road drove the first car.

**AS A GREAT AND GOOD MEDICINE!**

which are constantly being received from Physicians, and persons *who have* BEEN CURED by its use, is CONCLUSIVE PROOF of its REMARKABLE VALUE.

**AS A BLOOD PURIFIER,**

**IT HAS NO EQUAL.**

BEING POSITIVELY

**The Most Powerful Vegetable Alterative Yet Discovered.**

DISEASES OF THE BLOOD.

"The life of the flesh is in the Blood," is a Scriptural maxim that science proves to be true. The people talk of bad blood, as the cause of many diseases, and like many popular opinions, this of bad blood is founded in truth.

The symptoms of bad blood are usually quite plain—bad Digestion—causes imperfect nutrition, and consequently the circulation is feeble, the soft tissues loose their tone and elasticity, and the tongue becomes pale, broad, and frequently covered with a pasty, white coat. This condition soon shows itself in *roughness* of the skin, then in ERUPTIVE and ULCERATIVE diseases, and when long continued, results in serious lesions of the Brain, Liver, Lungs, or urinary apparatus. Much, very much, suffering is caused by impure blood. It is estimated by some that one-fifth of the human family are effected with scrofula in some form.

When the Blood is pure, you are not so liable to any disease. Many impurities of the Blood arise from impure diseases of large cities. Eradicate every impurity from the fountain of life, and good spirits, fair skin and vital strength will return to you.

**KOSKOO,**

AS A

**Liver Invigorator!**

**STANDS UNRIVALLED.**

**Being the only KNOWN Medicine**

that EFFICIENTLY *stimulates* and CORRECTS the *hepatic secretions* and functional DERANGEMENTS of the LIVER, WITHOUT DEBILITATING the system. While it acts *freely* upon the Liver *instead of copious purging*, it *gradually changes* the discharges *to a perfectly natural state.*

SYMPTOMS OF LIVER COMPLAINT AND OF SOME OF THOSE DISEASES PRODUCED BY IT.

A sallow or yellow color of the skin, or yellowish-brown spots on the face and other parts of the body; dullness and drowsiness, sometimes, headheat; in many cases a dry, teasing cough; unsteady appetite; sometimes sour stomach, with a raising of the food; a bloated or full feeling about the stomach and sides; aggravating pains in the side, back, or breast, and about the shoulders; constipation of the bowels; piles, flatulence, coldness of the extremities, etc.

**KOSKOO!**

Is a remedy of *Wonderful Efficacy* in the *cure* of diseases of the Kidneys and Bladder. In these Affections it is as near a specific as any remedy can be. It does its work kindly, silently, and surely. The Relief which it affords is both certain and perceptible.

DISEASES OF THE KIDNEYS AND BLADDER.

Persons unacquainted with the structure and functions of the Kidneys can not estimate the *importance* of their *healing action.*

Regular and sufficient action of the Kidneys is as important, nay, even more so, than regularity of the bowels. The Kidneys remove from the Blood those effete matters which, if permitted to remain, would speedily destroy life. A total suspension of the urinary discharges will occasion death from thirty-six to forty-eight hours.

When the Urine is voided in small quantities at the time, or when there is a disposition to Urinate more frequently than natural, or when the Urine is high colored or scalding with weakness in the small of the back, it should not be trifled with or delayed, but Koskoo should be taken at once to remedy the difficulty, before a lesion of the organs takes place. Most of the diseases of the Bladder originate from those of the Kidneys, the Urine being imperfectly secreted in the Kidneys, prove irritating to the Bladder and Urinary passages. When we recollect that medicine never reaches the Kidneys through the general circulation of the Blood, we see how necessary it is to keep the Fountain of Life Pure.

**KOSKOO!**

Meets with GREAT SUCCESS in the CURE of

**DISEASES OF THE NERVOUS SYSTEM,**

Almost nine-tenths of our people suffer from nervous exhaustion, and are, therefore, liable to its concomitant evils of mental depression, confused ideas, softening of the brain, insanity, and complete breaking down of the general health. Thousands are suffering to-day with broken-down nervous systems, and, unfortunately, tobacco, alcohol, late hours, over-work (mental and physical), are causing diseases of the nervous system to increase at a fearful rate.

The symptoms to which diseases of the nervous system give rise, may be stated as follows:

A dull, heavy feeling in the head, sometimes more or less severe pain or headache; Periodical Headache, Dizziness, Noises or Ringing in the Head; Confusion of Ideas; Temporary Loss of Memory; Dejection of Spirits; Starting during Sleep; Bad Dreams; Hesitation in Answering Questions; Dullness of Hearing; Twitching of the Face and Arms, etc., which, if not promptly treated, lead to Paralysis, Delirium, Insanity, Impotency, Apoplexy, etc., etc.
